### CAREER OBJECTIVE

I am an accomplished tech enthusiast and aviation veteran with a Bachelor's Degree and Generation Thailand's software developer certification. Applied keen attention to detail in airline safety practices. Diverse background enriched by global travels, meditation, and volunteerism. Skillful in language, leadership, and impactful presentations. Commended for counseling, empathy, and adept team leadership. Excited to merge skills in technology and service to drive positive contributions and growth within the team.

### WORK EXPERIENCE

#### Senior Supervisor

Thai Airways PCL.

June 1995 - May 2021 / Bangkok, TH

- Revised and edited technical manuals for an electronics company, ensuring accuracy and clarity in the documentation
- Served as Executive Pilot Secretary, managing administrative tasks with precision and confidentiality
- Verified passengers' documents, efficiently issuing boarding passes while maintaining meticulous attention to detail

#### ATM System Analyst

Bangkok Bank PCL.

November 1991 - January 1994 / Bangkok, TH

- Offered counseling services to bank branches for addressing accounting imbalances and ensuring financial accuracy
- Performed maintenance on individual out-of-order ATM machines to ensure uninterrupted service and optimal functionality
